SUMMARY

Full-stack developer (Prime Digital Academy, 2023) with hands-on experience across the project lifecycle in React, Node.js/Express, and PostgreSQL, plus Python/Flask. Builds and ships responsive web applications and RESTful APIs. Backed by 7+ years in operations and compliance-focused roles where accuracy and accountability were non-negotiable — bringing a level of reliability and attention to detail that is rare in early-career developers.

SKILLS

Languages: JavaScript, Python, HTML5/CSS3, SQL

Frontend: React, Astro, Tailwind CSS

Backend: Node.js/Express, Flask, REST APIs

Database: PostgreSQL

Mobile: React Native

Tools & Deployment: Git/GitHub, Docker, Vercel, Figma

Currently Learning: TypeScript, Next.js

EXPERIENCE

Freelance Web Developer — Remote 2023 – Present

- Design, build, and deploy production websites for small businesses, handling the work end to end from design through deployment.
- **PaintCraft MN:** built and shipped a production marketing site for a Minnesota painting company — multi-page service catalog, hero video, embedded Google reviews, and a Resend-powered contact form. Built with Astro and Tailwind CSS; deployed on Vercel (paintcraftmn.vercel.app).

Full-Stack Developer, Immersive Program — Prime Digital Academy · Remote Jan – Jul 2023

- Built responsive full-stack web applications with React, Node.js/Express, and PostgreSQL through complete project lifecycles.
- Developed RESTful APIs and integrated front-end and back-end components.
- Collaborated in Agile sprints including code reviews, daily standups, and testing.

Maintenance Mechanic II / Marina Assistant — City of Saint Petersburg, FL 2016 – 2023

- Managed marina operations and customer reservations through the Dockwa platform — data entry, scheduling, and payment processing held to a high accuracy standard.
- Supported daily reporting, documentation, and cross-department coordination.

Technician — USA Construction Group, Inc. · St. Petersburg, FL 2015 – 2017

- Installed navigational markers to regulatory standards with an emphasis on precision and safety compliance.

PROJECTS

Crypto Portfolio Tracker — Python, Flask, CoinGecko API, Docker

- Flask app for real-time portfolio analytics from external APIs, with error handling and logging for stability; containerized with Docker.

Vehicle Maintenance Tracker — JavaScript, Node.js/Express, PostgreSQL

- Full-stack application for logging and scheduling vehicle service history (Prime solo project).

Mental Health & Finance Mobile App — React Native, Node.js/Express, PostgreSQL

- Team-built client mobile app supporting mental-health and financial decision-making; contributed full-stack across the project lifecycle (Prime client project).

EDUCATION

Full-Stack Software Development — Prime Digital Academy · Remote (Minneapolis, MN) Jan – Jul 2023

A.A. Coursework, Computer & Information Science — Saint Petersburg College, FL 2018 – 2022
